

Wellbase[®]+

Always On. Always Protected.

Wellbase is Ready Computing's managed services suite that **provides hosting, monitoring, analytics, and security for healthcare and social-care organizations**. It's designed to ensure that **mission-critical** systems — such as health information exchanges (HIEs), social-care networks, and care-coordination platforms — **are always available, secure, and performing at their best**.

Watchtower

Your 24/7 Guardian.

- ✓ Continuously monitors servers and applications
