

Connecting People with Care

Trusted by social care networks and community hubs across the country, Channels360 is the **unified platform that powers care coordination, community engagement, and financial sustainability**. Designed for health and social care ecosystems, Channels360 seamlessly integrates people, programs, and partners - connecting systems and people with care.

Powerful features designed to transform how you coordinate care and connect communities.

Seamless Data Exchange

Integrate and exchange data across disparate systems—from EHRs and HIEs to social service platforms—using secure, standards-based interoperability.

Tailored to Every Program

Design and adjust workflows, assessments, and processes without custom code. Channels360 helps you mold your programs, not the other way around.

Unified Network View

Consolidate diverse organizations, data, and reporting into a single, coordinated view of your care network.

“Ready Computing helped us turn community vision into technical reality. Channels360 makes it possible for care coordination to reflect the voices, needs, and dignity of every person we serve.”

-Thuy Hua-Ly, Chief Finance and Operations Officer, HealthierHere

Community Hub

People-Centered Collaboration

Empower coordinators and case managers with shared tools to track progress, document care, and align across programs and partners.

Closed-Loop Referrals

Streamline referrals across the network—tracking engagement, acceptance, and outcomes for measurable community impact.

Financial Stability

Automate funding, claims, and performance-based payments to ensure accountability, transparency, and long-term sustainability.

Learn More

"When we were awarded the Social Care Network for our borough, Channels360 adopted the ACH screening tool within weeks, and even prior to official implementation. Our navigators and their employees are already using the tool! We are confident we have the technology partner to achieve success."

-Joseph Conte, Executive Director of the Staten Island Performing Provider System

Why Channels360?

Trusted by organizations nationwide to power care coordination and community engagement.

Trusted Nationwide

Supporting social care networks, community information exchanges, and innovative state and federal programs.

Interoperable by Design

Exchanges data with EHRs, HIEs, and community systems through HL7, FHIR, and API standards.

Secure and Scalable

Built with enterprise-grade security and compliant hosting infrastructure.

Configurable and Flexible

Tailored workflows, branding, and reporting for every network's mission.

"With Ready Computing, GaHIN was able to further its mission to improve care through connections. Channels360 allowed us to implement statewide seamlessly, but more importantly it opened the door to truly link the clinical with the social. Today, we can follow a person's journey from hospital to housing, from behavioral health to community care, helping to ensure that nothing falls through the cracks. That is what whole-person care looks like in action, and that is what makes this partnership so powerful for Georgia."

-Dr. Denise Hines, PMP, FHIMSS, Executive Director, Georgia Health Information Network (GaHIN)

Community Information Exchange

Health Information Exchange

Channels360 is an integrated coordination and data-exchange platform that connects healthcare and social service providers through real-time interoperability, unified workflows, and a shared longitudinal record. It streamlines referrals, enhances collaboration, and supports whole-person care at a scale.

Empowering communities. Connecting care. Improving lives.
